**TO WHOMSOEVER IT MAY CONCERN**

This is to confirm that at present we are using the ERP Software (Purchase Module, Sales Enquiry Tracking, Inventory and Sales Software) provided by M/s Crystal Software Solutions, Mumbai, India and we are fully satisfied with the software performance and after sales services provided to us by the supplier.

We have now entrusted them with the task of developing Production and Quality control functions for us. They have installed, implemented, trained and customized from Mumbai without even meeting us. We are happy to recommend them to any company and wish them all the very best.

For PCTL Automation Ltd.

Sanjeev Upadhyay  
(Director)

Dated: 9<sup>th</sup> September' 2013
